

FATEMA HANA

Full Stack Software Developer

+971-56-690-3544 • fatemahana007@gmail.com • Dubai, UAE • Valid UAE Family Visa & Work Permit • UAE Driving Licence (valid)

PROFESSIONAL SUMMARY

Full Stack Software Developer with 1+ year building and deploying production web applications for corporate clients across the UAE. Proficient in React, Node.js, REST APIs, MySQL/MongoDB, and AWS (EC2, Amplify). Hands-on experience integrating third-party systems — ZKTeco biometric devices, Amazon S3, Amazon Rekognition, and Paymob payments. Comfortable owning features end-to-end, from requirement gathering through deployment and client-facing demos.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Responsive UI Development

Backend: Node.js, Express.js, REST API Design

Databases: MySQL, MongoDB

Cloud & DevOps: AWS EC2, AWS Amplify, Amazon S3, Amazon Rekognition, DNS/SSL Configuration, Hostinger

Integrations: ZKTeco Biometric API, Paymob Payment Gateway, Webhooks

Tools: Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

Technology Officer | AurinHubb Technologies FZCO

Sep 2026 – Present | Dubai, UAE

- Provide technical direction across 12 concurrent client projects, translating requirements into development tasks for a 13-person remote engineering team
- Conduct code and pull-request reviews to maintain quality and consistency across parallel codebases
- Own infrastructure for all live projects — AWS/Hostinger hosting, domain and DNS configuration, deployment and monitoring
- Run client demos and feedback sessions and convert revisions into actionable sprints for the development team

Junior Software Developer / Project Coordinator | AurinHubb Technologies FZCO

Oct 2025 – Aug 2026 | Dubai, UAE

- Built and shipped a live-tracking platform for garage recovery agents and a car rental booking portal using React, Node.js, MySQL, and MongoDB
- Integrated ZKTeco biometric devices for real-time attendance tracking and Amazon S3 + Rekognition for facial-recognition verification workflows
- Integrated the Paymob payment gateway for secure online transaction processing in a client-facing application
- Owned AWS deployment (EC2, Amplify) and DNS/SSL setup for each client project, including post-launch monitoring
- Directed a team of 4–5 remote developers across 2 concurrent client builds, gathering requirements directly from stakeholders and reviewing deliverables before client sign-off
- Took on 3 additional external clients — including an MEP services company — designing solutions with the CEO and iterating with real client data until systems matched daily operations
- Led technical implementation for a multi-department computer-trading company: ran discovery sessions, authored the SOP, and built the platform to match it
- Set up a MySQL database from scratch for a separate client whose backend required a relational data structure

Software Developer Intern | AurinHubb Technologies FZCO

Jun 2025 – Sep 2025 | Dubai, UAE

- Built and debugged features on internal company projects using React and Node.js
- Handled initial AWS hosting setup and domain configuration for internal platforms
- Documented system processes and API specifications; supported QA cycles including bug identification and fix verification

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

Nov 2021 – May 2025 | GPA: 8.83 / 10.0

MES College of Engineering, Kerala

Ranked 3rd in class (Semesters 1–5) • Perfect 10/10 SGPA in Semester 7

LEADERSHIP & VOLUNTEER

Documentation Lead, NSS Execom Committee

Aug 2022 – Aug 2024

Managed documentation and coordination for large-scale community outreach programs including health camps, awareness drives, and local development initiatives.
